

MAN FOUND HUNG IN BARN THOUGHT A MURDER VICTIM

Foul Play Suspected in Death of Wilbert Swanson, Henry County, Supposed Suicide.

BODY IS ORDERED EXHUMED

Family Insists On Complete Investigation—Thief of Money Said To Figure in Case.

Sensational developments are expected when the body of Wilbert Swanson, 35 years old, who was found hanging from a rafter in a barn in a lonely wood near Swadonia, three weeks ago, is exhumed.

Word from Orion is to the effect that the coroner of Henry county plans to recover the body for the purpose of conducting an examination. Verdict of the jury which inquired into the man's death was that his own hand caused his untimely end. Swanson's family now believes the young man murdered, and the family requests an investigation. The body was buried in the Orion cemetery.

Swanson worked with a gang of men at a sawmill in the woods where his body was discovered. A stranger, who was employed at the sawmill, had stolen a sum of money, it is said, and of this Swanson knew. While no charges have been filed, it is generally believed in Orion that this was responsible for Swanson's death. He is thought to have killed the young man and then suspended his body with a rope from the rafter of the barn.

Men who cut down the body declare Swanson's neck was not broken, and this would not have been the case had he died from strangulation, physicians say.

On Sunday, Oct. 21, the sawmill, which was owned by a Mrs. Woodring, was burned to the ground. Cause of the fire is unknown, but it is thought to have been of incendiary origin. Persons in Orion connect the fire with the killing.

Whereabouts known. Authorities have not revealed the whereabouts of the stranger. They declare, however, that they know the location of the man who is suspected of the two crimes. After the body is exhumed arrests will likely be made.

HAWTHORNE SCHOOL LEADS IN SAVINGS

The school savings deposits collected by the State bank yesterday amounted to \$187.28, Hawthorne school again depositing the largest amount.

The results follow:

Alton Street	\$ 4.31
Angellton	6.20
Eugene Field	26.29
Grant	71.51
Hawthorne	40.24
Horace Mann	15.64
Jersey	27.85
Kimble	18.62
Lincoln	14.94
Linsell	20.45
Total	\$187.28

1914 Year of Tiger. London, Oct. 25.—(Correspondence Associated Press.)—The year 1914, says a British consular report from Japan, had been, according to the old Japanese system of reckoning.

A. F. OLSON NOW GIVES TESTIMONY

Well Known Moline Man Tells of His Past Condition and Relief by Tanlac.

TRAISES MEDICINE.

Well known people are now daily testifying to the good which Tanlac, the "Master Medicine," that is being introduced in this city, has done for them and their friends. A statement of exceptional interest was that made last week by A. F. Olson, a prominent labor and lodge man, who resides at 814 Fifteenth street, B. Mr. Olson said:

"I have been using Tanlac for stomach trouble and to help build up my system, which has been in a very much rundown condition. I am glad to say that this new medicine has done a great deal for me. Before I began taking Tanlac, I was also extremely nervous, which I think was brought about by so much work. I could not sleep soundly and was often forced to go back to work feeling tired and worn out.

"I had very little appetite and the food that I ate did not particularly agree with me. Since taking Tanlac, however, my nervous condition is greatly improved and I sleep much better than heretofore. I get up feeling greatly refreshed and seem to have new strength and energy. My appetite has increased and I enjoy everything I eat. Tanlac, in my opinion, is an extraordinary medicine."

Scores of others like Mr. Olson are obtaining relief by taking Tanlac. It is being used by thousands in this state with the most beneficial results for stomach, kidney and liver trouble, nervousness, catarrhal and bronchial troubles, loss of appetite and unsound sleep. For cases of debility and as a tonic for rundown persons, it is especially beneficial.

Tanlac, the "Master Medicine," is now being sold in Rock Island at Riess' Pharmacy where the merits of this preparation will be gladly explained to you upon request.—(Adv.).

HANDLES FUNDS OF SUFFRAGE PAGEANT

Mrs. Jesse D. Hampton.

Washington, Nov. 13.—Mrs. Jesse D. Hampton of New York has been chosen by the Congressional Union for Women Suffrage to transact the \$20,000 business that will be done Dec. 13, when 6,000 women from all parts of the United States parade in Washington to impress congress with the necessity of passing the Susan B. Anthony amendment, granting their sisters the right of franchise.

The pageant will cost \$10,000 to stage and the suffragists are sure that they will receive more than that from the sale of seats, of concessions, etc. This is Mrs. Hampton's second venture in big suffrage activities. Journeying to California in September in search of rest and pleasure she remained to help organize the Women Voters' convention, at which 4,000 women of the voting western states endorsed the Susan B. Anthony amendment and selected delegates to the coming convention in Washington.

ing, the Year of the Tiger, and in conformity with Japanese superstitions should have been a year of tragedy and disaster.

To a great extent this was so, says the report. The year began with the eruption of the Sakurajima volcano in the south of Japan, in the spring the Empress Dowager died, later on the disclosure of certain scandals contributed to the fall of the cabinet, in early summer the Kishuna bank failed, and in August war broke out.

PEORIAN ON WAY ON A NOVEL TRIP

Leaves Home With Dollar Capital With Determination to Cover 7,000 Miles Next Day.

W. H. Walters of Peoria, today in Rock Island completed the first lap of a 7,000 mile journey which he is making on a wager that he could leave his home city with \$1 capital and a pen and travel first class from coast to coast and from the gulf to the Canadian line. Thus far he has been successful.

With \$1 as total capital and unlimited confidence in his own ability to make good, Walters left his home city on Oct. 21, to make the distance before May 1, 1916, and to have at least \$10 upon his return.

His route lies between the Rocky mountains and New York city, and between the Gulf of Mexico and the Canadian line. So far he has been over the western end of the journey and is now being, not hiking, on the first lap toward the metropolis, arriving here this morning.

Among the many conditions of the undertaking are that he earn his way entirely with his pen, that he at all times keep looking neat, that he carry a trunk, buy all his stock of cards and ink. He may not use or accept anything for which he does not pay.

The trip is the direct result of an argument as to whether a man could achieve the same success in the winter as the itinerant card writer does in the summer. Walters contended that with a reasonable amount of hustle he could and hence he is out to prove it.

ESCAPED INMATE TO BE RETURNED

State's Attorney Will Get Extradition Papers for George Corbin, Held in Davenport.

Application for extradition papers for George Corbin, who recently escaped from the county jail and was picked up in Davenport, will be made by State's Attorney F. E. Thompson. Corbin refuses to return without the papers.

On Oct. 16 Corbin, who had been sent to the county jail for 60 days on a petty larceny charge for the theft of goods from a box car in the Burlington yards, made a getaway from the county jail. He was working in the kitchen and while not being watched, jumped through a window. After being picked up in Davenport an effort was made to have him brought back without the formality of extradition papers, but Corbin refused to come and the county prosecutor decided to call his bluff.

All the news all the time—The Argus.

AGED MAN, YEARS MISSING, IS FOUND

Albert Metzentine, Who Disappeared From Rock Island, Destitute in Kansas City.

SON IS TO BRING HIM TO HOME

Latter, Resident of Muscatine, Hears of Parent Through a Charity Organization.

Muscatine, Iowa, Nov. 13.—After years and years of separation, during which neither had been able to secure any trace of the other, August Metzentine, of 913 Newell avenue, and his father, Albert Metzentine, are to be reunited.

Many years ago the Metzentine family lived in Rock Island. They were in comfortable circumstances and everything seemed to be going well. Then a period of bad luck set in, during which the father and bread winner disappeared. That was when August was three years old.

Time passed. No word from the father, and the family drifted apart. There is another son Henry. His whereabouts are still unknown. There is also a daughter, Katie. She is married and living in Salem, Mo.

Yesterday the Journal received a communication from the Kansas City Provident association of Kansas City, Mo., saying that they had been looking after an old German named Albert Metzentine, who had drifted away from family and friends and was in destitute circumstances. The old German thought some members of his family might be located in or near Muscatine, but he was not sure.

Accordingly the search was begun, and with the help of Rev. John Haefner of the German Evangelical Lutheran church, August Metzentine, whose wife is a member of Rev. Haefner's congregation, was located at his home.

When informed this morning of the plight of his father in Kansas City the son immediately wrote to the Kansas City Provident association to make arrangements to have the old man sent to Muscatine, where he will pass the rest of his days in peace and quiet.

Since that day years ago when his father dropped from sight, August Metzentine has prospered. At 913 Newell avenue his little family have a comfortable modern cottage home, and Mr. Metzentine runs a small button factory.

The days of trouble and turmoil of hardship and suffering are over for the father. Albert Metzentine, Word has been flashed to Kansas City that the search is ended, and there is nothing left but to write him to one of our everyday tragedies which too often pass us by unnoticed and unknown.

HIGH SCHOOL NOTES.

General assembly was held at the high school yesterday afternoon for the purpose of presenting the loving cup won in The Argus-Dispatch repertorial contest to the school. Carl W. Sodergren, one of the 15 school editors that put out The Argus on the afternoon of Oct. 28, was selected to present the trophy. In his presentation speech, Sodergren explained how the contest was won and concluded by expressing the wish that the school would win the prize for two succeeding years, thereby securing it permanently for the school. Mrs. Cora L. Eastman, assistant principal of the high school, responded, accepting the cup in the name of the school. She complimented the editors on their spirit and ability and expressed the wish of the school to possess the cup as a permanent prize.

The program clock recently provided for by the board of education was installed in the high school yesterday. The clock is designed to operate automatically the programs in the high school. Manual Arts building and Lincoln school, sounding a gong two and one-half minutes before the close of each period and then at the end of the period itself. The clock is equipped with five discs and can be provided with eight, each capable of operating a program. Thus the regular high school and Lincoln school programs can be operated and there is still room for six more programs to be operated by the clock. The night school program can be operated on the same disc as the regular high school program. The clock can also be provided with a fire alarm connection which can ring every bell operated by the clock, but as yet none has been installed. Principal Burton stated that he expected that eventually such an addition would be made. The total cost of the clock is about \$70. Considering the extreme usefulness of the arrangement this amount is very moderate.

An excellent program was rendered at the high school yesterday evening by the Augustana college band, which was secured a week ago by Principal A. J. Burton as an extra number on the school lyceum course. Holders of season tickets to the course were admitted to the entertainment last night on their tickets, while the single admission for students was 10 cents and for outsiders 25 cents. The band was ably directed by Carl H. Kalquist, a musician of extraordinary talent, and two years ago a player in the Boston Symphony orchestra, who is now a teacher of the cornet at Augustana. He was assisted by Miss Helen Peterson, a violinist of wonderful ability. J. W. Casto also assisted Mr. Kalquist, directing the band while the selections of his own composition were rendered. The band itself was a fine one, the different instruments blending together very harmoniously.

The program was as follows:

Overture, "Class of 1916 (Augustana College)" Carl H. Kalquist
Gavotte, from "Suite of Louis XIII" Henry Ghys
Intermezzo, "Shimmering Spangles" Valse, "Firenze la Bella" March, "Victor Emmanuel" J. W. Casto
Intermezzo from "L'Arlésienne" Mazurka, "Souvenir de Posen" Waltzes from the "Dollar Princess" Leo Fall
Descriptive Fantasia Lafferty
"The Haunted House" (by request) Selection from the "Bohemian Girl" Ballo

TRIAL CALENDAR IS SET BY JUDGE

Cases Which Will Be Heard the Coming Week in County Court Arranged on List.

Trial calendar for the coming week was set by Judge Neil A. Larson in county court yesterday. The replevin suit filed by Emelle Van Damme against Edmund Gryps, which was scheduled to come in the court yesterday was continued until Monday and will be likely heard at that time. Following is the trial list:

Monday.
Emelle Van Damme vs. Edmund Gryps; replevin.
Hattie Nelson vs. City of Rock Island; assumpsit.
Fred Myers vs. William T. Lamont; case.
Maurice Bockaert vs. Agnes Mills; assumpsit.

Tuesday.
Moline Pressed Steel Co., an Illinois corporation, vs. John Klehm & Son; assumpsit.
Moline Heating and Construction Co. vs. Klehm Nursery Co.; assumpsit.
C. M. Hobbs & Sons vs. John Klehm & Sons; assumpsit.
Charles W. Lundahl vs. Myra Walker; assumpsit.

Wednesday.
Henry Kohankie & Sons vs. John Klehm & Sons; assumpsit.
T. E. Burke vs. William Cox; assumpsit.

Thursday.
A. T. Leopold vs. A. Fred Alsene and Harold A. Swanson; assumpsit.
F. M. Mitchell vs. I. S. Cox; appeal.

Friday.
Conrad H. Lininger and Albert Myers, partners, etc. vs. Edith W. Hayes; assumpsit.
Conrad H. Lininger and Albert Myers, partners, vs. Eugene B. Hoke and Abbie L. Hoke; assumpsit.

John Looney vs. Chicago, Rock Island and Pacific; assumpsit.

Orny A. Weatherhead vs. Charles E. Whiteside; forcible entry and detainer.
Ina Hudson vs. Squire Dean; assumpsit.

W. A. McNair, administrator estate of Leonard D. Beardsley, dead, vs. R. S. Berry; assumpsit.

AUTHORITY OF JESUS IS SERMON THEME

Rev. James Edgar Wilson at Broadway Presbyterian church will tomorrow morning speak on "The Authority of Jesus," and in speaking of his theme says:

"As I sat at my typewriter in my study one morning I noticed the following quotation in large headlines in a daily newspaper on my desk: 'Church Dooms Has Last Force.' And as I glanced down the page, my eyes fell upon this sentence, 'The authority of the church has collapsed; this century will be remembered as the era in which established authority yielded gradually and completely to the freedom of democracy.' And, placing that sentence over against one from the pen of Dr. James Denney, in which he says: 'In every century in Christendom the nation has outgrown the church, or has to a large extent passed from beneath its influence,' I concluded that the collapse of the authority of the church was a good thing—a thing to be welcomed cordially. 'It was that conclusion that provided the inspiration for my message for Sunday morning next.'"

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Harper House pharmacy.—(Adv.)

FIRST SERVICE IN SCIENCE TEMPLE

Congregation to Worship in Beautiful New Edifice Tomorrow Morning and Evening.

COST APPROXIMATE \$100,000

Church Is Said To Be Finest in the State—Auditorium Seating Capacity Is 840.

The beautiful new First Church of Christ, Scientist, Twenty-second street and Seventh avenue, will be formally opened tomorrow morning with services at 10:45. Work was started on the house of worship 14 months ago, and it is not quite complete as yet, but the main auditorium, where the services are to be held, is finished.

It is said to be the finest Christian Science church in the state, and is surpassed by none in the country. The church is built along classic lines both outside and inside and it cost nearly \$100,000 to erect. No special ceremonies will mark the opening of the new temple, and the regular Sunday services will be held both tomorrow morning and in the evening.

The \$6,000 Austin organ, donated by Mrs. P. C. Denkmann, has been installed, and Rudolph Lindstrom has been engaged as organist. The organ was purchased from the Austin Organ company of Hartford, Conn.

Auditorium Beautiful.
The auditorium or main room is the feature of the new temple, with its five classic arches and immense stained glass dome, which furnishes all of the natural light in the daytime. All of the pews are made of curly birch, specially constructed, and the seating capacity is 840. The floor is bowl shaped. The color scheme in the decorations are plain, but pleasing and blending into a resting effect. The walls are done in light tan, fading into gray, with circassian walnut stain in the furnishings and brown Wilton plush rugs on the floor.

Another feature is the lighting arrangement. Hidden tungsten furnish illumination in the dome and classic arches. There are four immense bowels constructed of metal and composition with stained glass, each 45 inches in diameter, each containing four 100-watt tungsten, suspended from the ceiling. The organ is located at the west end of the auditorium and screened from view. The two altars for the readers are stationed at the west end of the room. There are three entrances to the auditorium, all leading from the foyer, two being at the sides and the third entrance being in the center.

Foyer at East End.
In the foyer located at the east entrance the floor is constructed of mosaic tile, with indirect lighting system. The same color scheme prevails in the foyer as in the main room. The directors' room, which is furnished in mahogany, is located at the south, off the foyer. The Sunday school room is to the west, directly under the auditorium, and is 35 by 39 feet in dimension. The Sunday school room is to be equipped with chairs and inscriptions have been used in the decorative scheme on the walls. The heating plant, ventilating plant and blower for the organ are all located on the south side of the structure. Under this plan the church can be heated in winter and cooled in summer.

West of the auditorium on the main floor are the rooms for the singers, organist and first and second readers. At the foyer there are two sets of doors to the outside, the inside doors being made of curly birch, while the outside doors are of bronze.

Made Entirely of Stone.
The building is constructed entirely of blue Bedford stone in classic style, and the large pillars at the entrance are hewn out of one piece. The outside dome is of copper and glass, while the inside dome is entirely of stained glass. The church is 92 feet wide and 112 feet long.

A handsome approach to the building is being built from the street, consisting of a series of concrete walks, three leading up to the main entrance. The site about the church is being landscaped and a hedge fence will be arranged around the entire property.

The public has been cordially invited to attend either service tomorrow and to inspect the new church. The church was designed by William C. Jones of Chicago. William Goetzinger of Chicago had the general contract. The electrical work was done by W. A. Robb of Moline, the heating and plumbing by Channon & Duffa of Rock Island and the decorations and painting by C. H. Biegel of Chicago.

All furnishings, electric fixtures and other pieces were constructed especially for the church.

IOWA HORSE BUYER IS ARRESTED AGAIN

Frank Stice shook the hand of Chief of Police Phil Miller in police court today and said that he was going back to his home in Iowa sure.

Stice paid \$25 and costs yesterday for carrying concealed weapons and this morning he paid \$3 and costs on a charge of disorderly conduct, having been arrested again last night by the police. He is a horse buyer and when arrested Thursday night was found lying in the street, his head badly bruised and lacerated.

He hid the same farewell as today to the chief yesterday, but failed to make good his announced intentions.

A southwestern paper answering a question about high and low record cotton prices, said that in 1866 the highest price was 52 and the lowest 32 cents, while since that time cotton has dropped as low as 5-6 cents in 1893.

DODGE BROTHERS ROADSTER

It has enjoyed an extraordinary demand because it embodies those qualities which make a roadster desirable.

You look for lightness—and the weight of this car is only 2150 pounds.

You look for strength—and a glance shows you how substantial it is.

You want seats so wide and deep that two passengers can lounge in perfect comfort—and you have them.

You expect grace and beauty—and you will search in vain for a line or a curve that is not beautiful.

You want plenty of storage space—and you find room under the rear deck for all the luggage two would wish to carry.

In ten months more than thirty million dollars worth of Dodge Brothers Motor Cars have been bought by the American people.

The motor is 30-35 horsepower.
The price of the Touring Car or Roadster, complete, is \$785 (L. & L. Detroit).
The price of the Winter Touring Car or Roadster, complete, including regular motor top, is \$950 (L. & L. Detroit).

PARENT TEACHERS CLUB IS FORMED

Plan Made to Make Bowlesburg School, Near Carbon Cliff, Standard Institution.

A parent-teachers' club was formed yesterday afternoon at the Bowlesburg school, district 35, near Carbon Cliff, by Miss Lou M. Harris, county superintendent. Miss Harris made a brief address, outlining the advantages of such an organization, and following her talk officers were named. Mrs. Ella Stone being named president and Mrs. Iona Stone, secretary.

The school is to be standardized within the next year. Already exten-

sive improvements have been made. A furnace has been installed and other modern equipment added. The school directors, Thomas Stone, E. T. Welis and John Hynd are entitled to much credit for the progressiveness they have shown. Two teachers are employed, Miss Signe Johnson, who has 29 pupils in the upper room, and Miss Esther Peterson, who has 35 pupils in the lower grade.

An American history written by Professor T. F. Moran of Perdue and James S. Woodburn of Indiana university has incurred the displeasure of the Massachusetts progressive party's state committee. The book is declared unfair in designating the party "progressive republican." It is asked that further use of it in the schools be forbidden.
